EDUCATION

Karunya Institute of science and Technology
Btech Computer science and engineering
August 2024 - May 2028
Coimbatore, Tamil Nadu

Alpha wisdom vidyashram senior secondary school CBSE
Grade 12
Percentage:76.2 | April 2023 - May 2024
Tiruchirapalli, Tamil Nadu

Alpha wisdom vidyashram senior secondary school CBSE
Grade 10
Percentage:77.2 |April 2021 - May 2022
Tiruchirapalli, Tamil Nadu

PROJECTS

AIRLINE MANAGEMENT SYSTEM

The Airline Management System is an application developed with Python as the front end and SQL as the back end. This system allows administrators to manage flight operations efficiently. When an admin enters a flight number, the system retrieves and displays detailed flight information, including the ability to update flight timings and enter new flight details. Additionally, users can check the status of flights to see if they have been canceled or delayed.

Technologies Used: Front End: Python | Back End: SQL

DESSERT SHOP WEBSITE

Cherrylicious is a visually appealing website created using HTML and CSS. The site showcases a vibrant and engaging design, aimed at providing users with an enjoyable browsing experience. The project highlights my ability to effectively utilize markup languages to create a responsive and user-friendly interface.

Technologies Used: Markup Languages: HTML and CSS

SKILLS

LANGUAGES
Intermediate:
- Python
- SQL
- HTML
- CSS
- C
- Javascript

Web development

TOOLS & TECHNOLOGIES

Git and Github

AWARDS

Achieved **SECOND PLACE** in the Bridge Course on Web Development, conducted by Karunya University

CERTIFICATIONS

Programming with Javascript Certificate
